

R1 — El Junquito Ridge

Field-trip route · 20.7 km · Caracas (Catia) → near site 86 (3 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes

Draft · 2026-07-22

R1 — El Junquito Ridge at 1:50,000. Blue line = drivable route (20.7 km); numbered dots = points of interest. Inset: setting at 1:2,500,000 (basemap © Google); red box = figure extent. Basemap © Google.

Site	Coordinates (WGS84)	Setting	Slope (°)	Aspect
93	10.496251°N, 66.962243°W	—	27.2	N
94	10.494426°N, 66.973014°W	populated	29.1	S
86	10.493808°N, 67.023486°W	remote	29.6	NW

- Points of interest are landslide candidate sites; route routed to pass as close as drivable roads allow (OpenStreetMap).
- Setting / slope / aspect from the candidate-site attributes; “—” where not recorded.
- Start and end points are shown on the map without labels; see the header for the route's start → end description.

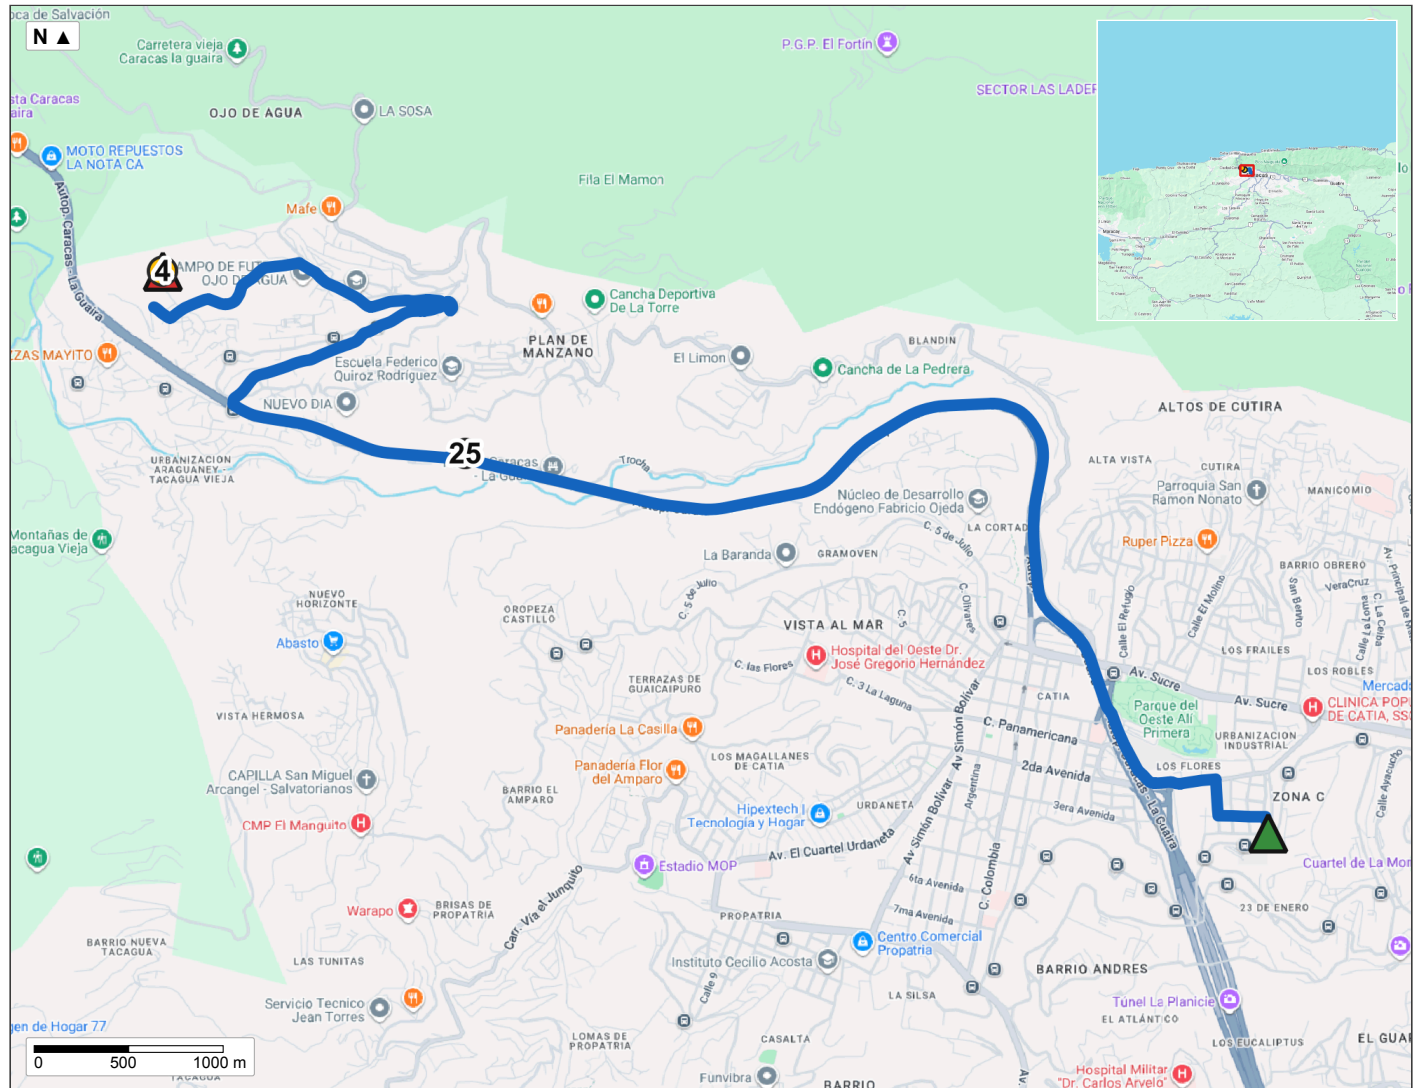

R2 — Autopista + Trocha

Field-trip route · 9.8 km · Caracas (Catia) → site 4 (2 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes

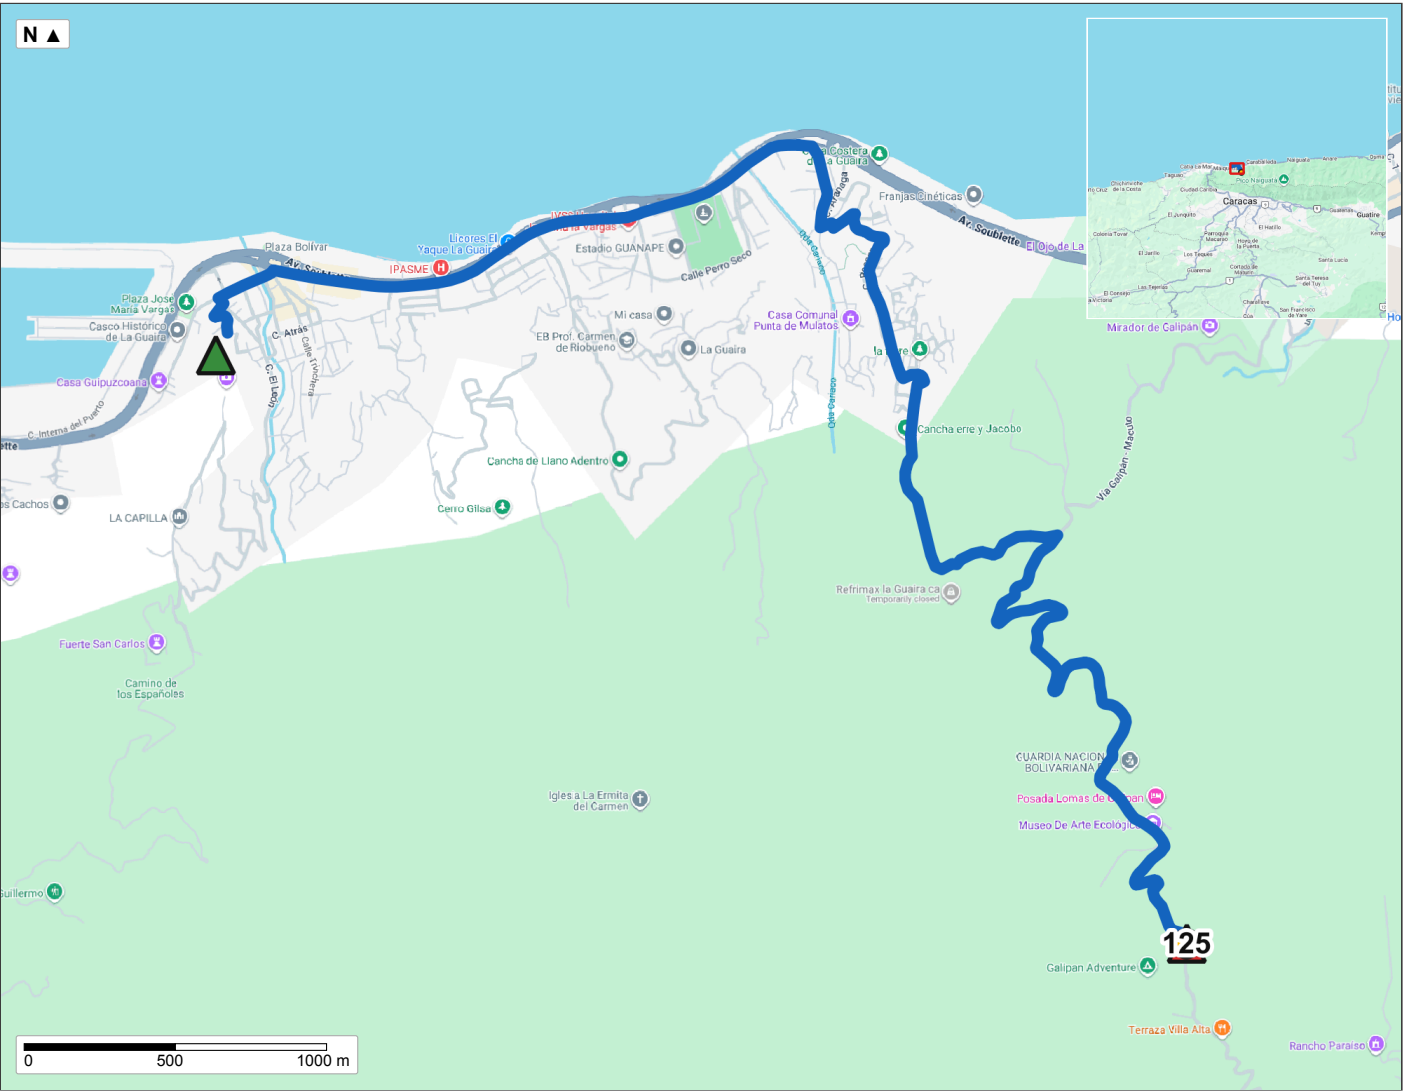

Draft · 2026-07-22

R2 — Autopista + Trocha at 1:40,000. Blue line = drivable route (9.8 km); numbered dots = points of interest. Inset: setting at 1:2,000,000 (basemap © Google); red box = figure extent. Basemap © Google.

Site	Coordinates (WGS84)	Setting	Slope (°)	Aspect
25	10.525799°N, 66.970339°W	populated	29.3	S
4	10.533847°N, 66.983632°W	populated	23.8	SW

- Points of interest are landslide candidate sites; route routed to pass as close as drivable roads allow (OpenStreetMap).
- Setting / slope / aspect from the candidate-site attributes; “—” where not recorded.
- Start and end points are shown on the map without labels; see the header for the route's start → end description.

R3 — Forum Stadium → 125 at 1:25,000. Blue line = drivable route (6.4 km); numbered dots = points of interest. Inset: setting at 1:1,250,000 (basemap © Google); red box = figure extent. Basemap © Google.

Site	Coordinates (WGS84)	Setting	Slope (°)	Aspect
125	10.583776°N, 66.906341°W	—	—	—

- Points of interest are landslide candidate sites; route routed to pass as close as drivable roads allow (OpenStreetMap).
- Setting / slope / aspect from the candidate-site attributes; “—” where not recorded.
- Start and end points are shown on the map without labels; see the header for the route’s start → end description.

R4 — La Guaira Coast

Field-trip route · 13.5 km · site 124 → site 78 (6 stops)

Route map
GEER (landslides team) 2026-06-24 Venezuela Earthquakes
Draft · 2026-07-22

R4 — La Guaira Coast at 1:40,000. Blue line = drivable route (13.5 km); numbered dots = points of interest. Inset: setting at 1:2,000,000 (basemap © Google); red box = figure extent. Basemap © Google.

Site	Coordinates (WGS84)	Setting	Slope (°)	Aspect
124	10.607475°N, 66.827416°W	populated	—	—
105	10.593330°N, 66.850688°W	remote	53	E
79	10.602256°N, 66.853651°W	—	25	NE
80	10.603496°N, 66.852675°W	—	31.9	NE
81	10.601504°N, 66.851631°W	—	30.1	E
78	10.606582°N, 66.873335°W	populated	27.4	NE

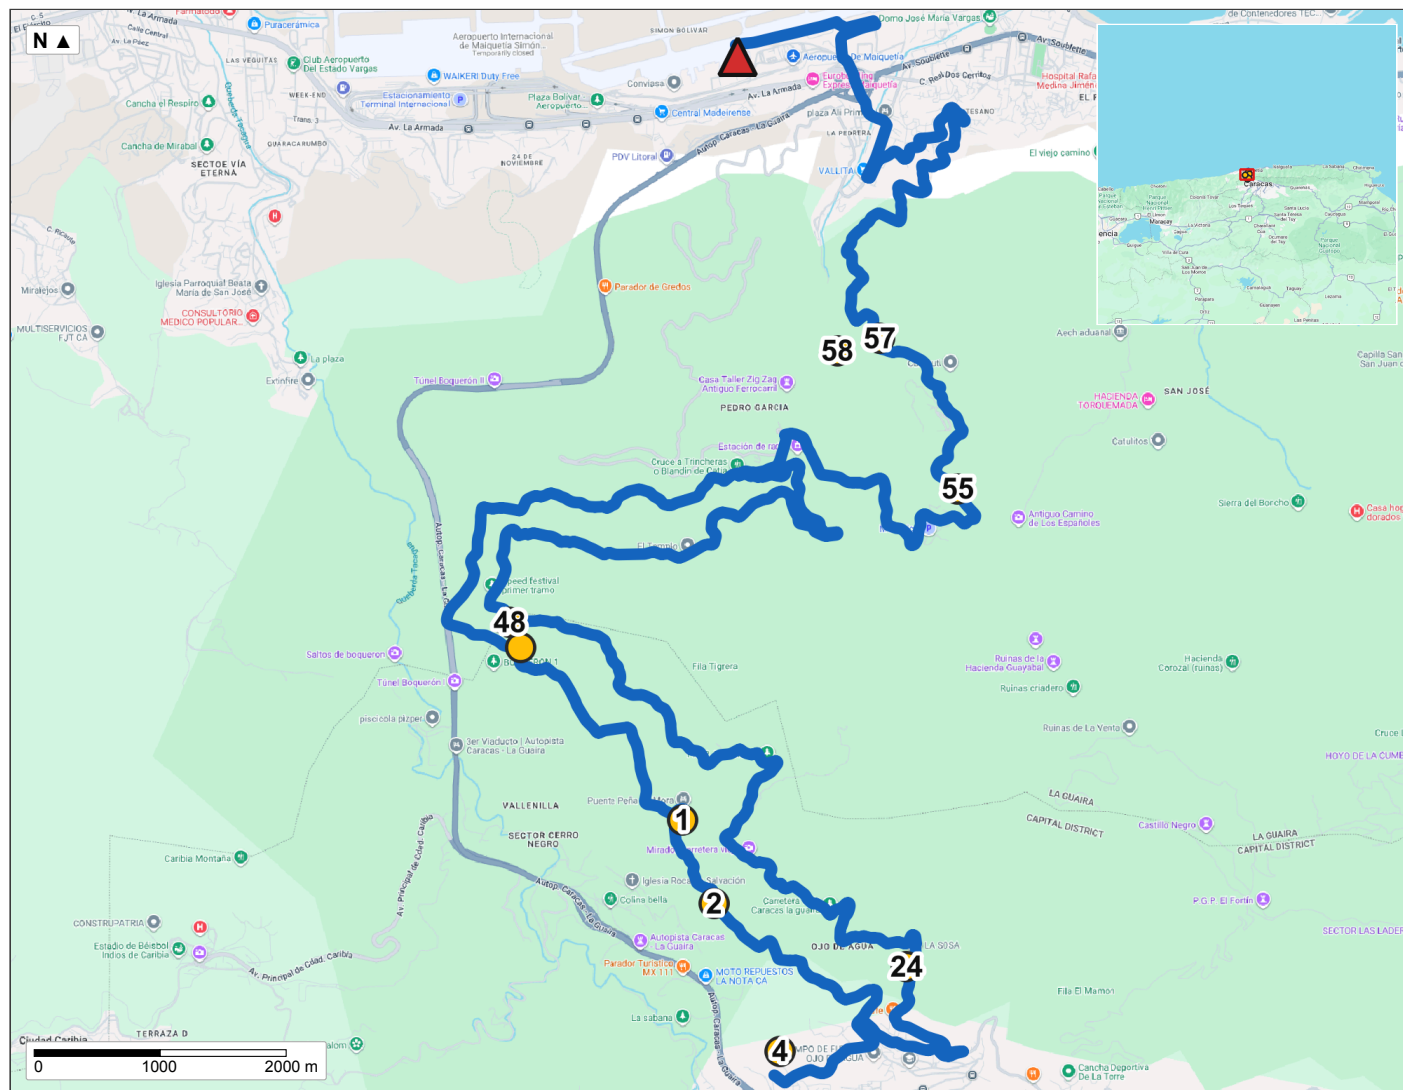

- Points of interest are landslide candidate sites; route routed to pass as close as drivable roads allow (OpenStreetMap).
- Setting / slope / aspect from the candidate-site attributes; “—” where not recorded.
- Start and end points are shown on the map without labels; see the header for the route’s start → end description.

R5 — Airport Loop

Field-trip route · 33.1 km · Simón Bolívar Airport → Simón Bolívar Airport (9 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes
Draft · 2026-07-22

R5 — Airport Loop at 1:60,000. Blue line = drivable route (33.1 km); numbered dots = points of interest. Inset: setting at 1:3,000,000 (basemap © Google); red box = figure extent. Basemap © Google.

Site	Coordinates (WGS84)	Setting	Slope (°)	Aspect
57	10.580476°N, 66.976736°W	remote	38	W
58	10.579688°N, 66.979543°W	remote	41.8	NE
55	10.570604°N, 66.971632°W	remote	35.8	SW
49	10.560389°N, 67.000620°W	remote	19	SW
1	10.549015°N, 66.989994°W	remote	25.8	SW
2	10.543535°N, 66.987934°W	remote	26.5	SW
4	10.533847°N, 66.983632°W	populated	23.8	SW
24	10.539321°N, 66.975220°W	populated	37.8	W
48	10.562043°N, 67.001342°W	remote	26.8	S

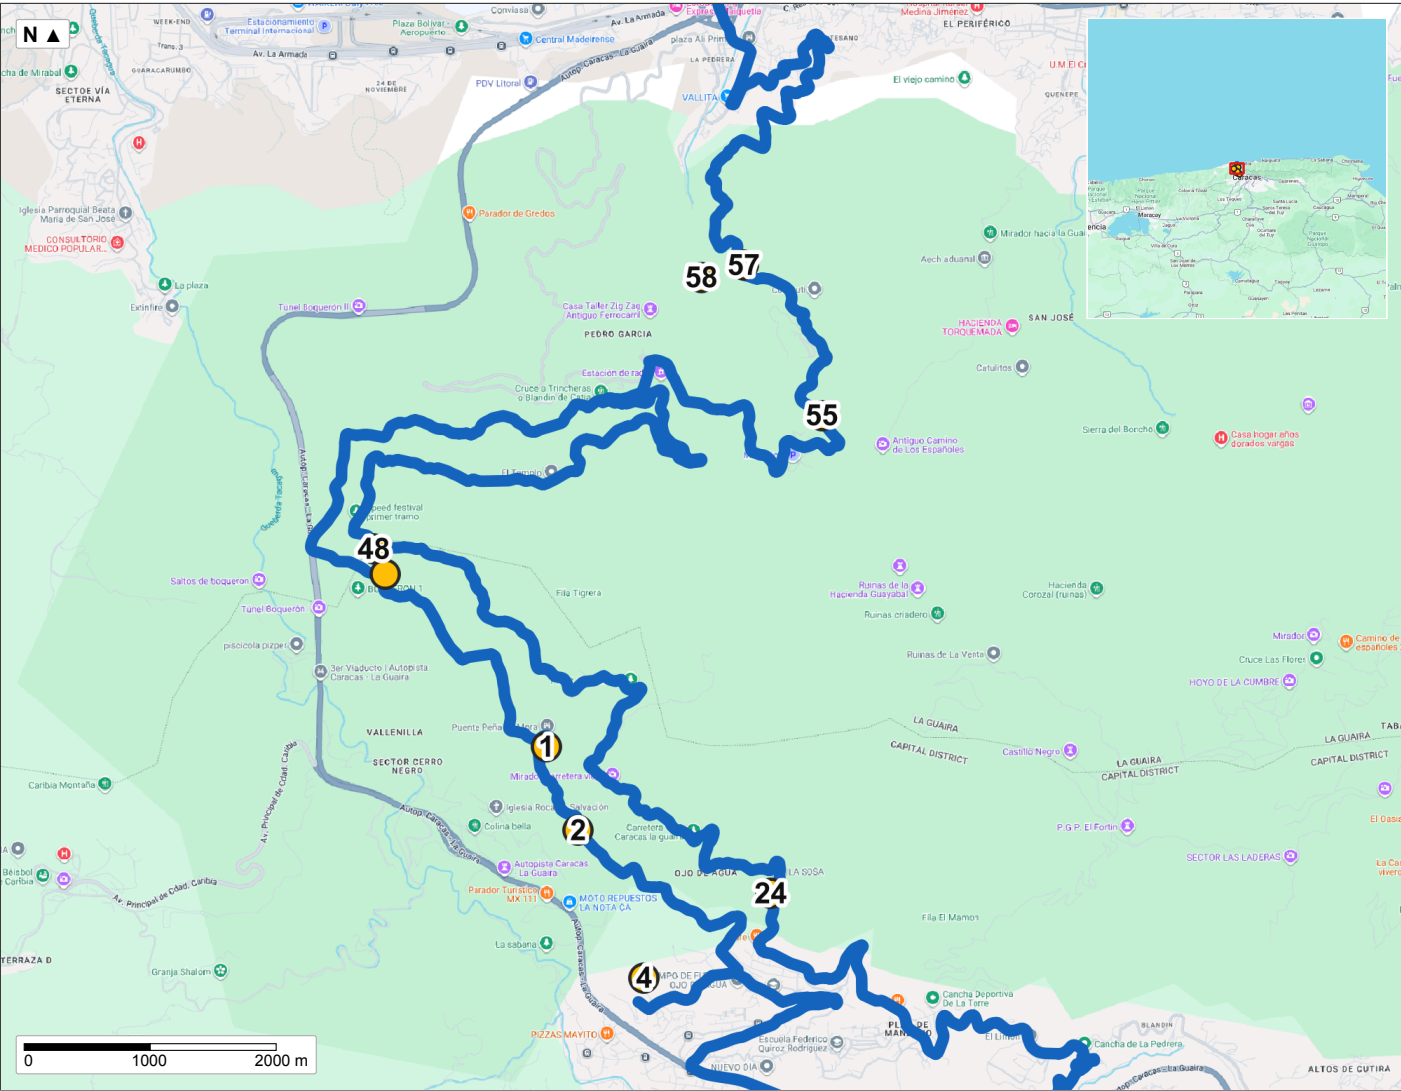

- Points of interest are landslide candidate sites; route routed to pass as close as drivable roads allow (OpenStreetMap).
- Setting / slope / aspect from the candidate-site attributes; “—” where not recorded.
- Start and end points are shown on the map without labels; see the header for the route’s start → end description.

R5alt — Airport Loop (via Trocha)

Field-trip route · 42.8 km · Simón Bolívar Airport → Simón Bolívar Airport (16 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes
Draft · 2026-07-22

R5alt — Airport Loop (via Trocha) at 1:60,000. Blue line = drivable route (42.8 km); numbered dots = points of interest. Inset: setting at 1:3,000,000 (basemap © Google); red box = figure extent. Basemap © Google.
