

Route 1

Field-trip route · 13.5 km · site 124 → site 78 (6 stops)

GEER (landslides team) 2026-06-24 Venezuela Earthquakes

Draft · 2026-07-22

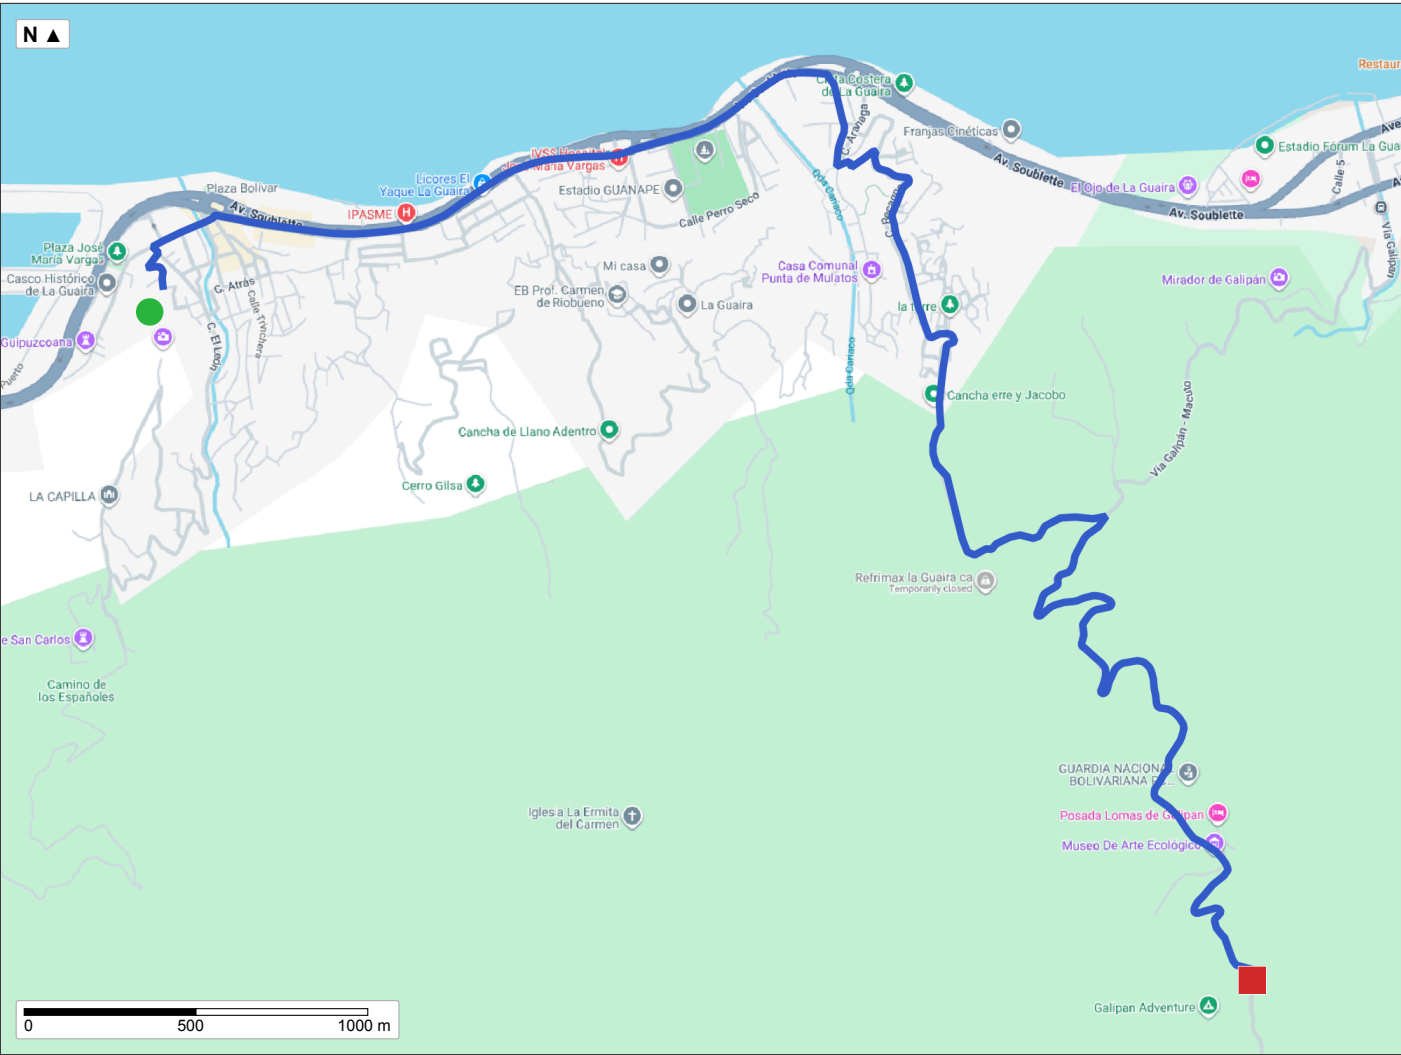

Route 1 at 1:33,500. Blue line = drivable route (13.5 km); ● start, ■ end, numbered dots = points of interest. Extent covers the whole route. Basemap © Google.

Site	Perishability estimate	Extent estimate	Coordinates (WGS84)	Approx. dist. to road (m)	Notes
●			10.607475°N, 66.827416°W		
124	low	large	10.607475°N, 66.827416°W	10	
105	low	medium	10.593330°N, 66.850688°W	250	
79			10.602256°N, 66.853651°W	110	
80			10.603496°N, 66.852675°W	70	
81			10.601504°N, 66.851631°W	80	
78	low	medium	10.606582°N, 66.873335°W	50	
■			10.606582°N, 66.873335°W		

- / ■ mark the route's driving start / end (green circle / red square on the map); numbered dots are landslide candidate sites the route is routed to pass as close as drivable roads allow (OpenStreetMap).
- Perishability estimate indicates priority for documenting evidence before it degrades or is removed.
- Approx. dist. to road: straight-line distance to nearest drivable road in OpenStreetMap.

Route 2

Field-trip route · 6.4 km · Forum La Guaira Stadium → site 125 (1 stop)

Route 2 at 1:22,000. Blue line = drivable route (6.4 km); ● start, ■ end, numbered dots = points of interest. Extent covers the whole route. Basemap © Google.

Site	Perishability estimate	Extent estimate	Coordinates (WGS84)	Approx. dist. to road (m)	Notes
●			10.600000°N, 66.933000°W		
125	med	small	10.583776°N, 66.906341°W	10	
■			10.583776°N, 66.906341°W		

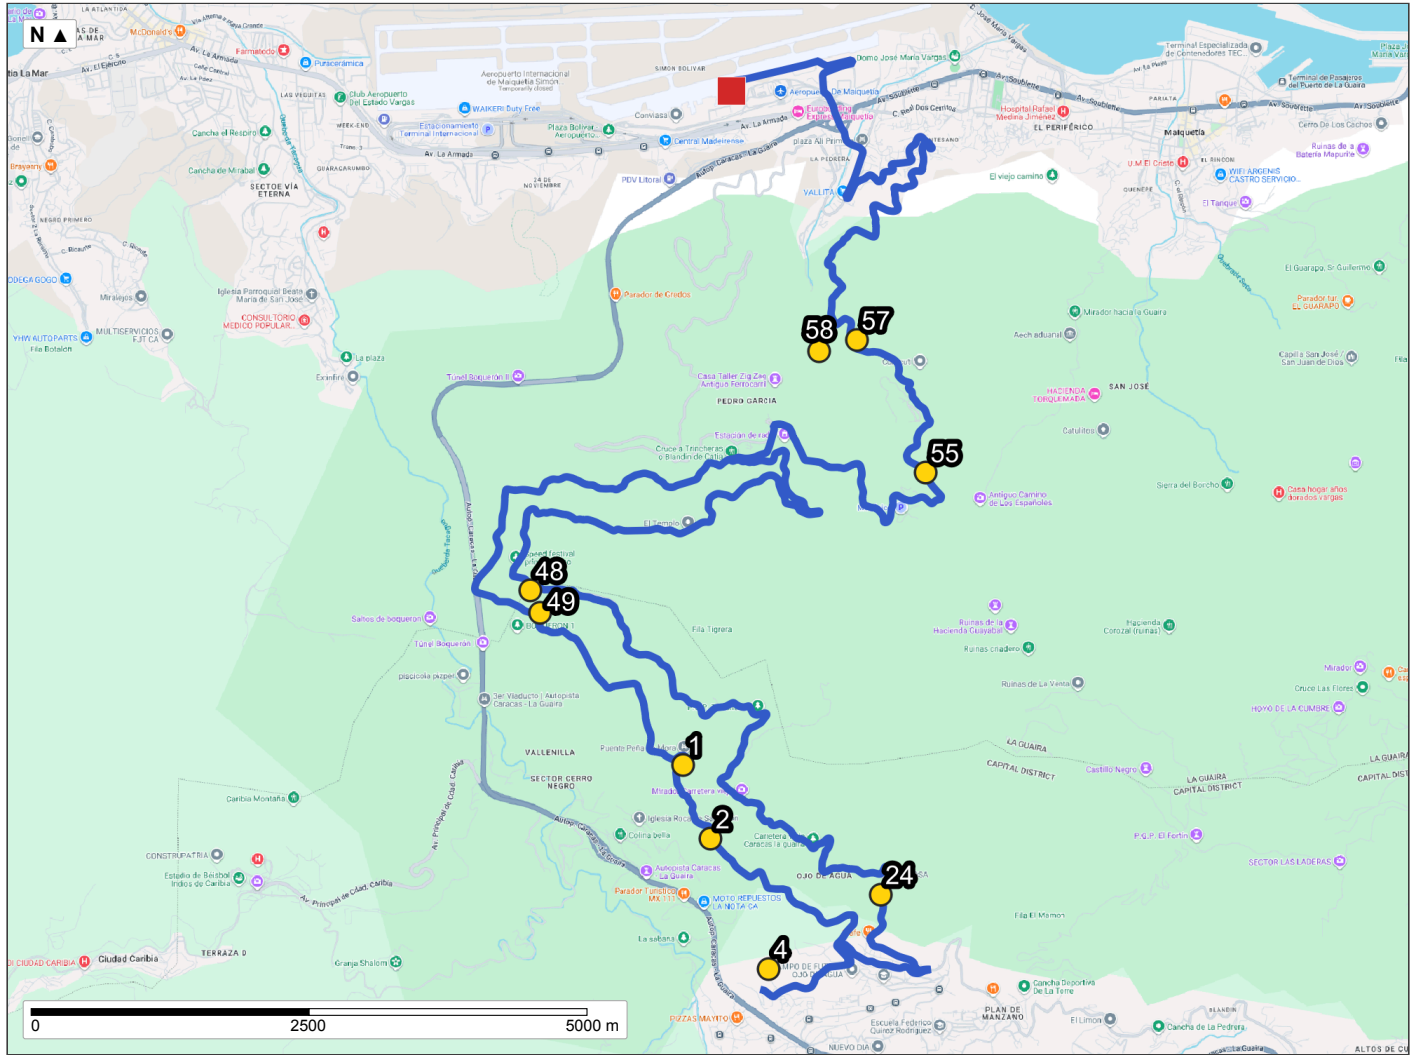

- / ■ mark the route's driving start / end (green circle / red square on the map); numbered dots are landslide candidate sites the route is routed to pass as close as drivable roads allow (OpenStreetMap).
- Perishability estimate indicates priority for documenting evidence before it degrades or is removed.
- Approx. dist. to road: straight-line distance to nearest drivable road in OpenStreetMap.

Route 3

Field-trip route · 33.1 km · Simón Bolívar Airport → Simón Bolívar Airport (9 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes
Draft · 2026-07-22

Route 3 at 1:68,000. Blue line = drivable route (33.1 km); ● start, ■ end, numbered dots = points of interest. Extent covers the whole route. Basemap © Google.

Site	Perishability estimate	Extent estimate	Coordinates (WGS84)	Approx. dist. to road (m)	Notes
● ■			10.599000°N, 66.986000°W		
57	med	medium	10.580476°N, 66.976736°W	40	
58	med	medium	10.579688°N, 66.979543°W	260	
55	high	medium	10.570604°N, 66.971632°W	10	
49	low	small	10.560389°N, 67.000620°W	40	
1	med	small	10.549015°N, 66.989994°W	10	
2	med	small	10.543535°N, 66.987934°W	10	
4	med	medium	10.533847°N, 66.983632°W	180	
24	high	medium	10.539321°N, 66.975220°W	20	
48	low	medium	10.562043°N, 67.001342°W	50	

- / ■ mark the route's driving start / end (green circle / red square on the map); numbered dots are landslide candidate sites the route is routed to pass as close as drivable roads allow (OpenStreetMap).
- Perishability estimate indicates priority for documenting evidence before it degrades or is removed.
- Approx. dist. to road: straight-line distance to nearest drivable road in OpenStreetMap.

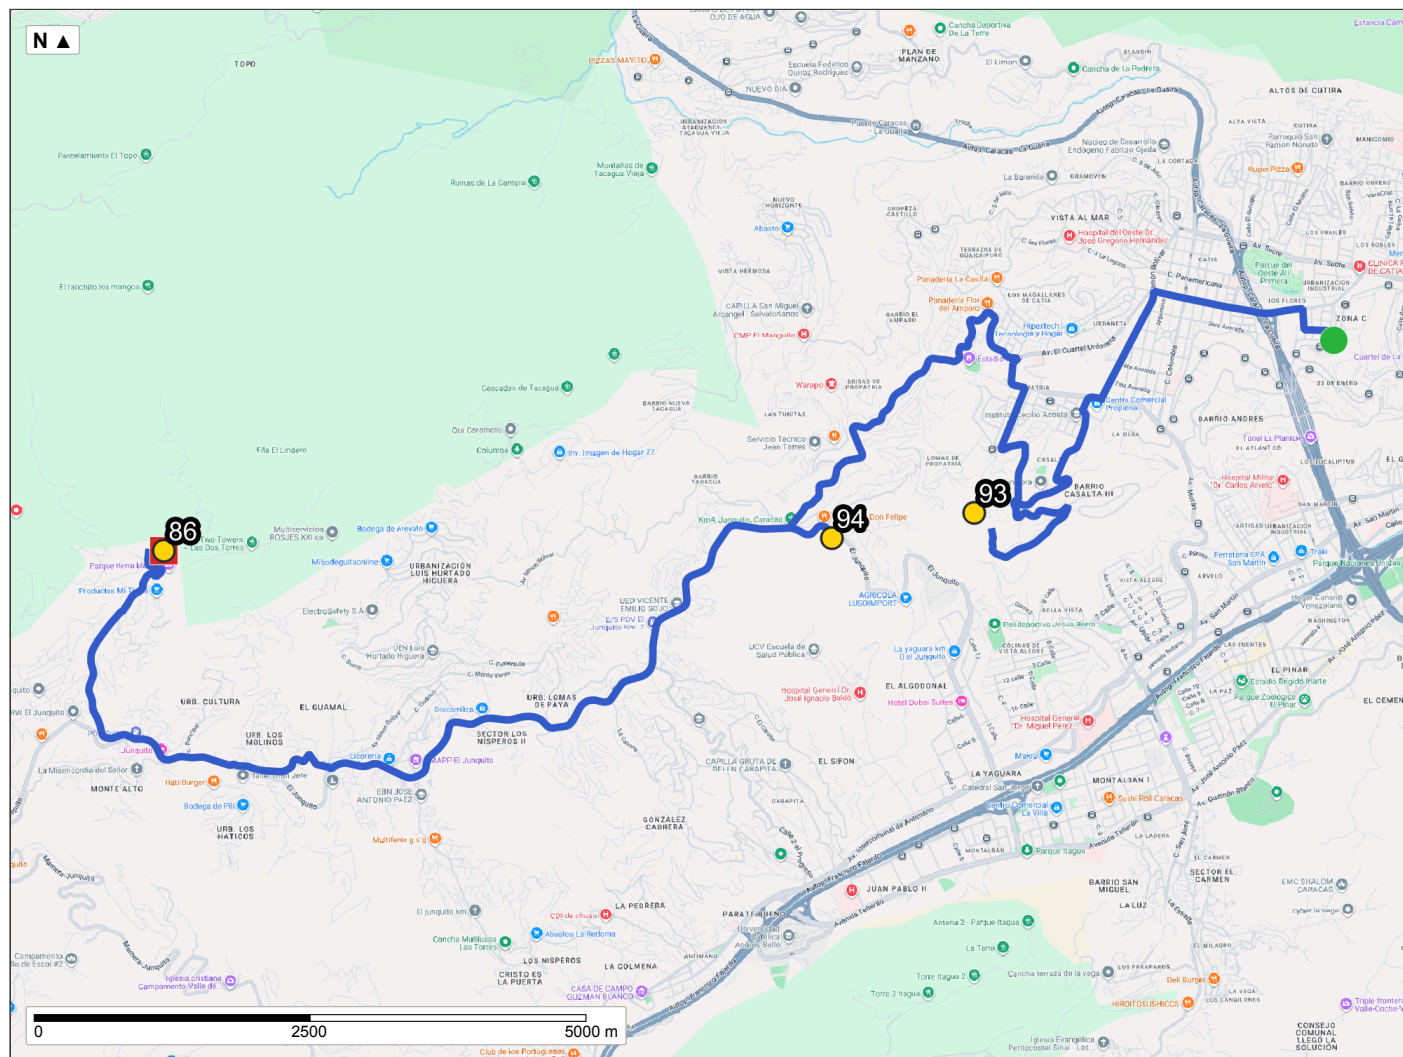

Route 4

Field-trip route · 20.7 km · Caracas (Catia) → near site 86 (3 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes

Draft · 2026-07-22

Route 4 at 1:68,500. Blue line = drivable route (20.7 km); ● start, ■ end, numbered dots = points of interest. Extent covers the whole route. Basemap © Google.

Site	Perishability estimate	Extent estimate	Coordinates (WGS84)	Approx. dist. to road (m)	Notes
●			10.509000°N, 66.935000°W		
93			10.496251°N, 66.962243°W	220	
94	high	medium	10.494426°N, 66.973014°W	50	
86	med	large	10.493808°N, 67.023486°W	130	head scarp
■			10.493808°N, 67.023486°W		

- / ■ mark the route's driving start / end (green circle / red square on the map); numbered dots are landslide candidate sites the route is routed to pass as close as drivable roads allow (OpenStreetMap).
- Perishability estimate indicates priority for documenting evidence before it degrades or is removed.
- Approx. dist. to road: straight-line distance to nearest drivable road in OpenStreetMap.

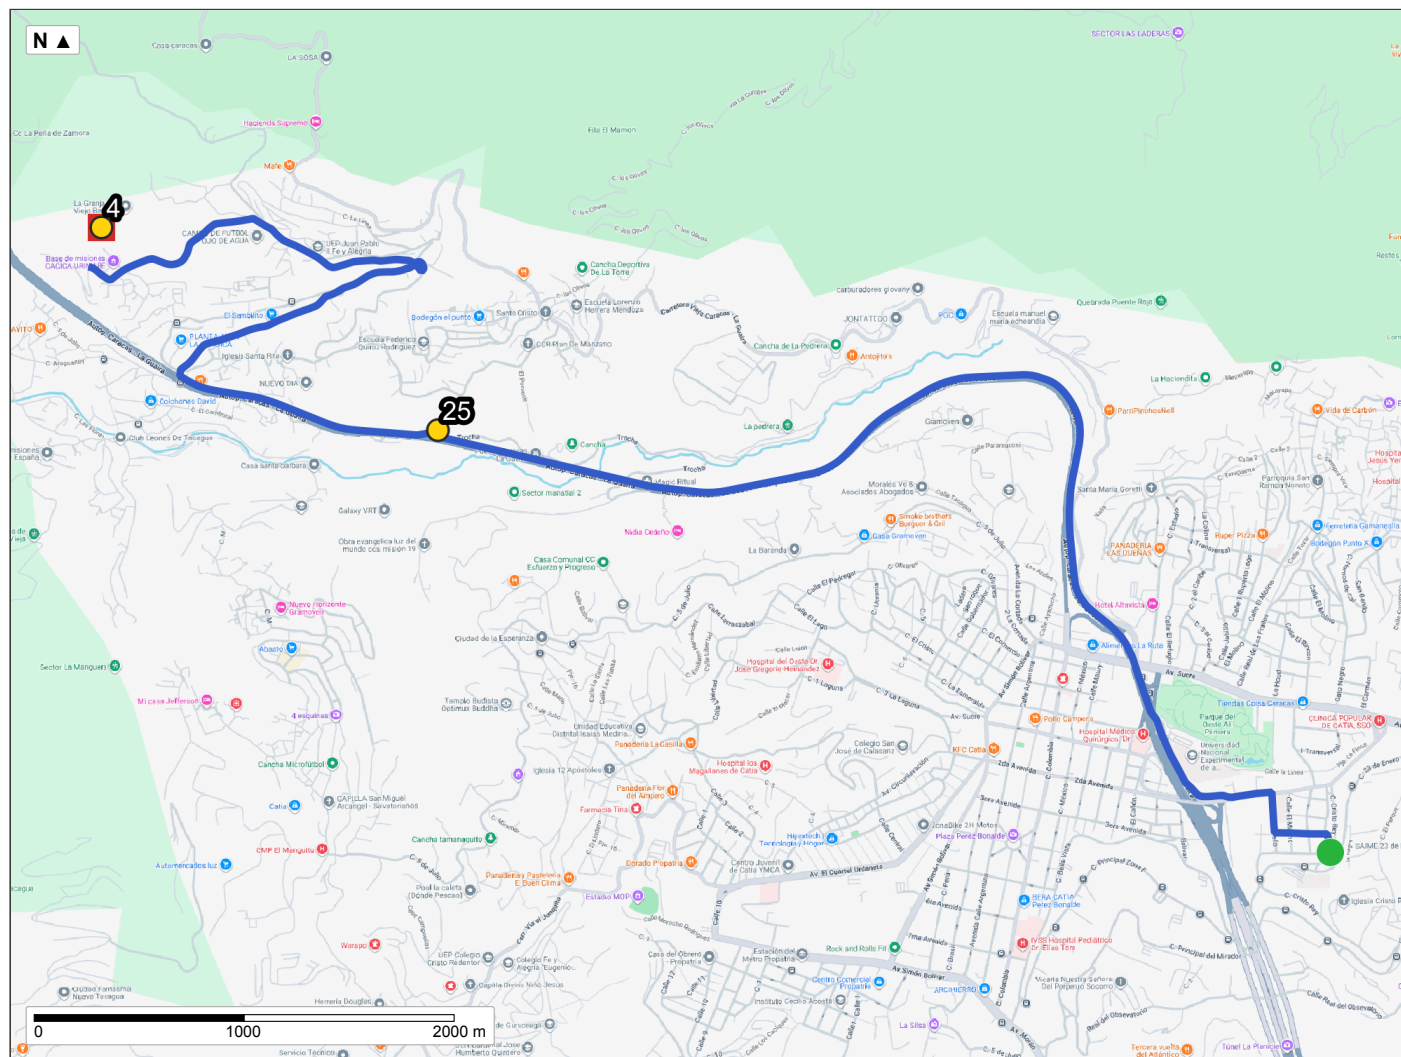

Route 5

Field-trip route · 9.8 km · Caracas (Catia) → site 4 (2 stops)

Route map

GEER (landslides team) 2026-06-24 Venezuela Earthquakes

Draft · 2026-07-22

Route 5 at 1:36,000. Blue line = drivable route (9.8 km); ● start, ■ end, numbered dots = points of interest. Extent covers the whole route. Basemap © Google.

Site	Perishability estimate	Extent estimate	Coordinates (WGS84)	Approx. dist. to road (m)	Notes
●			10.509000°N, 66.935000°W		
25	med	small	10.525799°N, 66.970339°W	0	
4	med	medium	10.533847°N, 66.983632°W	180
